# PERFORMANCE COMPRESSION ARM SLEEVES

NEW FOR SS26

°CLIMACOOOL

## HIGHLIGHTS

Designed to fuse performance with style, the performance sleeves keep you cool, protected, and locked in through every session. Crafted with moisture-wicking Climacool technology, the lightweight elastane-nylon blend delivers breathable comfort by dispersing sweat to keep you dry and focused. The streamlined fit reduces irritation, while a silicone inlay and built-in thumb holes keep the sleeves firmly in place, no matter the intensity.

-  Moisture-wicking Climacool material
-  Engineered for lightweight, breathable comfort using an elastane-nylon blend
-  UPF 40+ rating provides protection against UV rays
-  Longer design with integrated thumb holes
-  Aids temperature regulation by providing a light layer of insulation
-  Streamlined fit helps to prevent irritation
-  Silicone inlay and built-in thumb holes prevent unwanted movement
-  Reflective silver details increase visibility for safer low-light training
-  (X2) Supplied as a pair

# WRIST PROTECTORS [ 8 c m ]

## HIGHLIGHTS

Crafted from high-quality knitted material, the wrist protectors mould effortlessly to your wrists for a secure and comfortable fit, strengthening your performance every time you train or compete. The bands' absorbent fabric helps to keep sweat at bay, ensuring your hands are dry for a tighter grip and more focused reps.

-  Prevents wrist discomfort and rubbing from lifting accessories or kettlebells
-  Provides light compression, wrist cushioning, and added stability
-  Ideal accessory for all types of strength training
-  Absorbent fabric helps wipe away sweat
-  Keep your hands dry for a stronger grip and more focused reps
-  Made from quality knitted material
-  Soft and lightweight design provides greater comfort
-  One size bands form to your wrists
-  Supplied as a pair

# WRIST WRAPS

## HIGHLIGHTS

Engineered to stabilise and reinforce your wrists, the adidas wrist wraps are your key to stronger and more effective lifts. Perfect for all types of strength training, the wraps reduce strain and grip fatigue, empowering you to tackle even the heaviest weights with confidence.

-  Offers reinforced wrist stability for stronger lifting
-  Reduces wrist strain and grip fatigue
-  Ideal for all types of strength training
-  Helps improve your range of push and pull movements
-  Breaks training plateaus by assisting heavier lifts
-  Secure Velcro fastening
-  Integrated loops allow for seamless wrapping
-  Strong woven design, with a highly durable elasticated material blend
-  One size fits all
-  Supplied as a pair

## MODEL NO.

Black & White: ADST-13200BK

Black & Pink: ADST-13200PK

## WRIST WRAPS

### HIGHLIGHTS

Made from durable elasticated material, the adidas wrist wraps provide support and stability to help advance your compound lifting. Featuring an elasticated thumb strap and Velcro fastening, the wraps offer a tailorable fit for maximum comfort and protection.

-  Provides support and stability to advance your lifting
-  Offers comfort and protection
-  Elasticated thumb strap
-  Secure Velcro fastening
-  Durable elasticated material
-  One size fits all
-  Supplied as a pair

# AB WHEEL

## HIGHLIGHTS

Designed to develop total core strength, the adidas ab wheel is a great addition to traditional core training. Allowing you to perform rollouts, the wheel engages the entire core to develop both your stability and strength in one dynamic movement.

-  Achieve greater strength & stability through rollouts
-  Targets the entire core, back and shoulders
-  Created with a durable PP material construction
-  Rubber-like tyre surface grip maximises traction
-  Densely padded NBR foam handles

VIDEO

## MODEL NO.

ADAC-11404BK-NL

# PERFORMANCE AB WHEEL

## HIGHLIGHTS

Bringing a new dimension to your core workouts, the adidas performance ab wheel develops total abdominal strength and stability with a simple and effective movement. Targeting the abdominal muscles, obliques, and lower back as you perform the rollout, the ab wheel also works the upper back and shoulders as you contract through to your starting position.

-  Achieve greater strength & stability through rollouts
-  Targets the entire core, back and shoulders
-  Adjustable wheel placement for beginner and advanced modes
-  Durable design capable of supporting all users
-  High-grip wheels maximise traction
-  Ergonomic, TPR covered handles for comfort & grip
-  Lightweight, compact, and quick to assemble

VIDEO

## MODEL NO.

ADAC-11407

## CORE ROLLERS

### HIGHLIGHTS

Offering an array of exercise options, the adidas core rollers engage the entire core, back and shoulders with a wide range of movement options. Delivered as a pair, the rollers take core rolling to a new level, allowing you to roll each side independently and in any direction.

-  Targets the entire core, back and shoulders
-  Twin core rollers vary your exercises to engage different muscle groups
-  Anti-slip wheels provide greater traction
-  Ergonomic, foam covered handles for comfort & grip
-  Lightweight, compact, and durably designed
-  14.5 cm diameter wheels

### MODEL NO.

ADAC-11604GR

## PUSH UP BARS

### HIGHLIGHTS

Designed to enhance each rep, the adidas push up bars allow you to deepen your range of motion for more targeted training. Adding 11.5 cm in height to your push-ups, the bars place greater stress on both your chest, arm and shoulder muscles, helping to boost the effectiveness and challenge of each rep.

 11.5 cm height adds greater depth to your push-ups

 Increased vertical range places more emphasis on the chest, arm, and shoulders

 Foam handles provide greater comfort and grip

 Neutral handle positioning eases wrist discomfort

 Wide base and floor grips add stability and traction

VIDEO

**MODEL NO.**

ADAC-12231-NL

## PERFORMANCE PUSH UP BARS

### HIGHLIGHTS

Designed with numbered arrows and a shoulder target, the performance push up bars perpendicular grip alignment encourages perfect form in three highly effective push-up positions. With the embossed arrows facing forwards, the numbered positions can accommodate triceps, deltoid and major pectoral adjustments for more focused and concentrated muscular development.

-  11.7 cm height adds greater depth to your push-ups
-  Ergonomic handles reduce strain on the wrists
-  Numbered positions for targeting different muscles
-  Grippy base adds stability and traction
-  Solid design results in a max. user weight of 120kg

### MODEL NO.

ADAC-12232

## PREMIUM PUSH UP BARS

### HIGHLIGHTS

Allowing you to deepen your push-ups by 14cm, the adidas premium push up bars enhance each rep by creating a deficit that traditional ground movements do not. Placing more emphasis on the chest, shoulder, and arm muscle groups, the premium bars create far more effective and challenging reps.

-  14cm height adds greater depth to your push-ups
-  Increased vertical range places more emphasis on the chest, arm, and shoulders
-  Foam handles provide greater comfort and grip
-  Neutral handle positioning eases wrist discomfort
-  Grippy feet provide maximum floor traction
-  Solid design results in a max. user weight of 130kg

### MODEL NO.

ADAC-12233-NL

# DOOR GYM

## HIGHLIGHTS

Designed with a counterbalance mechanism, the adidas door gym fits most frames for upper body training. Fitted with padded hand grips, the door gym helps target the back and biceps with 3 pull-up variations; also working the chest and triceps when used on the floor.

 Designed with a counterbalance mechanism

 Three padded hand grip positions

 Foam padded door protectors

 Fits most frames

 Extends further from the door than most bars; allowing you to perform complete pull-ups

ADRP-12234-NL

# SKIPPING ROPE

## HIGHLIGHTS

Designed with an ergonomic bottleneck inspired structure, the adidas skipping rope is ideal for developing your cardio endurance whilst working on your foot speed and total coordination.

-  Fit for building endurance, timing and coordination
-  Integrated tangle-free ball bearing mechanism creates smoother rotations
-  Thinner braided steel wire with rubber-like coating delivers optimal rotation speed and rope path control
-  Moulded plastic handles feature a smooth bottleneck design for a stronger and more comfortable grip
-  Includes a drawstring mesh carry bag for easy storage
-  300cm long - easily adjusted without cutting

## MODEL NO.

ADRP-13311

## WEIGHTED SKIPPING ROPE

### HIGHLIGHTS

Built for top-level skipping performance, the adidas weighted skipping rope is specifically designed to deliver ultra-smooth rotations. Fitted with an integrated swivel ball bearing mechanism at the shoulder of each handle, the rope swings true to the motion you put through it.

-  Ideal for building endurance, timing and coordination
-  Moulded plastic handles for a stronger grip
-  Integrated tangle-free ball bearing mechanism creates smoother rotations
-  Interchangeable 2.5mm and 4.5mm options
-  Coated braided steel ropes deliver optimal rotation speed and path control
-  300 cm long - easily adjusted via a simple screw
-  Includes two 100g removable inserts
-  Includes a recycled carry bag for easy storage

### MODEL NO.
